Flat:4-B House No:173/27 Shahjadpur 1212 Dhaka

PROFILE

A results-driven software developer focused on building scalable, real-world solutions across ERP, MES, and enterprise systems. To integrate AI into software and make complex workflows simpler through agentic AI . building intelligent systems that act, adapt, and automate on behalf of users.

WORK EXPERIENCE

Software Developer Onsite DEC 2025 – PRESENT

Hybritech Innovation LTD

- Designing and developing a full-scale ERP solution aligned with SAP standards
- Managing CI/CD pipelines using AWS EC2 and SAP HANA for automated testing and deployment
- Developing a cross-platform desktop application using Electron
- Building dynamic frontends using Angular, React, and Tailwind CSS
- Developing backend services using Laravel and Node.js with Prisma ORM
- Implementing custom microservices with OData v4 for flexible data querying
- Building a real-time machine monitoring system using Modbus protocol and WebSocket communication

Junior Software Developer Onsite JAN 2025 – NOV 2025

Hybritech Innovation LTD || Sct Bangla LTD (Schertech Italy)

- Designed and developed a ERP–MES Module solution for Schertech.com under SCT Bangla, including the ShiftVisu module for real-time production error and failure monitoring for Hall and plant
- Developed a comprehensive MES-integrated ERP system for Bandab Textile using React, Angular, Laravel, SAP UI5, Node.js, Nest.js, WebSocket, Tailwind

Internship Onsite OCT 2024 – DEC 2024

Simec System LTD

- Developed and integrated REST APIs using Node.js, Express.js, and a data layer featuring Prisma, MySQL, and MongoDB. Built complete web applications with React.js, implementing critical features like token-based authentication, email verification, FTP stirring, and a relational product management system.

TECHNICAL SKILL

Agentic AI

Lang chain , ollama , llama3, mcp server

Backend

PHP(Laravel) , NODE(nestjs , express)

Frontend

Angular, React, Next.js, JavaScript (ES6+), HTML5, CSS3, SAP UI5

Databases : MySQL, PostgreSQL , MongoDB , cache(Redis server)

Protocol

Modbus , Udp , WebSocket, MQTT, Bonjour , Tcp , Webrtc

Embedded IOT

Fingerprint(R-605) , Standard Switch system & Realtime sensor data

ACHIEVEMENT AND LEADERSHIP

Teacher

Shakif arislan High School (Guest Teacher ICT)

RESEARCH AND INTEREST

- Data-Driven Systems & Decision Support Systems
- Software Engineering & Scalable System Design (ERP, SaaS, distributed systems)
- Artificial Intelligence & Machine Learning (Applied AI, LLM integration, intelligent systems)
- Offline based sync engine for cloud with sqllite

EDUCATIONAL QUALIFICATION

Bachelor of computer science and engineering OCT 2024 – PRESENT

Presidency University

- CGPA: 3.65 Out of 4.00
- In Progress (Expected Graduation: 2027)

Higher Secondary Certificate (HSC) 2021 – 2022

Darunnajat Siddikia Kamil Madrasah

- GPA: 5.00 Out of 5.00
- Group: Science

Secondary School Certificate (SSC) 2019 – 2020

- GPA: 4.78 Out of 5.00
- Group: Science

PROJECTS

Aptigen ERP – Desktop ERP System

Web: erp.aptigen.net | App: aptigen.net

Tech Stack

Desktop (offline + online): electron.js, React, SAP UI5, SQLite, sync engine

Web (online): React.js, SAP UI5

Server: Supabase, Node, NestJS, OData, Prisma, MySQL, WebSocket

About

Aptigen ERP is a modular enterprise management system for shops, industries, and enterprises. It handles core operations like HR, inventory, production, and machine management, while also including Aptigen Market, a built-in marketplace where users can list and manage their products directly from the ERP platform.
